Glaro's Complete Family of Fine Metal Accessories

## Total Quick-Ship Program

Glaro is dedicated to a most unique concept. We continue to ship almost all orders within 48 hours, as we have done since 1945. Orders for bellman carts, recycling containers, engraved sign panels and other select products may take slightly longer. All merchandise shipped F.O.B. Hauppauge, N.Y. 11788.

## GO GREEN - GO GLARO

Glaro is committed to operating as an environmentally responsible manufacturer by utilizing raw materials with a high percentage of recycled content. Furthermore, these products can themselves be recycled.

## Return Policy

The return of merchandise must be authorized in writing and the return shipment must be received within 30 days of the original shipping date. All returns are subject to a restocking charge. Refunds will only be issued in the form of credit which will be applied to future purchases. SP (special), CUST (custom), and some standard but custom assembled products are not returnable.

## Please note:

Product specifications are subject to change without notice. The actual color of products may vary slightly from the colors shown in the printed literature. Actual color samples are available upon request.

6600 BE Premium Bellman Cart

**PREMIUM BELLMAN CART COLLECTION**

# Bellman Carts

## The Glaro Glider "6 Wheel Premium" Collection

**Glaro 6 Wheel Carts Will Out-Perform Any Conventional Cart...  
...Two Center Pivot Wheels Make the BIG Difference!**

- **Glaro Pioneered & Popularized**

The "6 wheel" cart concept. This is the first major innovation to the bellman cart industry in many years. In addition, Glaro has perfected and is the only manufacturer to engineer rust and tarnish-proof aluminum and "brass" carts. Plus Glaro Glider carts are proudly produced entirely in the USA. All carts are shipped in only a few days from receipt of an order.

- **The Big Cart that also works in Tight Spaces...**

This six wheel design (4 swivel corner wheels and 2 fixed center wheels) enables you to maneuver this 48 inch cart as if it were only 24 inches long.

- **Carries 150% More Weight**

The six, Eight Inch Diameter, Ball Bearing, Pneumatic tires on a Powder Coated Galvanized Steel Chassis can quietly carry 150% more weight than conventional four wheel carts.

6600 SA - Premium Bellman Cart

- **Normal Loads Feel 50% Lighter**

These carts can be maneuvered easily with less inertia or tilting because there is more wheel surface supporting your load. "Normal" loads are 50% easier to manipulate than conventional four wheel carts.

- **Unbelievable Maneuverability**

Maneuverability is unbelievable. Glaro carts are much easier to control when space is limited because of the 6 wheel advantage.

- **A Smooth Quiet Ride**

Never disturb your guest again. The six Glaro Glider, Eight-Inch Diameter, Ball-Bearing, Shock Absorbing "Air-Filled" tires, maneuver smoothly and quietly, even on hard floor surfaces. These carts can be maneuvered easily with less noise because there is more wheel surface supporting your load. "Normal" loads are 50% easier to manipulate than conventional four wheel carts.

- **Push or Pull from Either End**

Glaro Carts have no front and no back. The cart is easily controlled from either side and can be pushed or pulled with total control, making it easier to turn corners without bumping walls. Get in and out of elevators or tight places with ease.

- **Customizable**

Put a logo or wording on the carpet in any color you wish. Supply us with the art or ask our graphics department to provide the design. Carpeting is durable Olefin and may be replaced in the field when needed. Mix and match any Glaro finish on each part of the cart frame to create a contrasting two color cart. Match or contrast the interior design at the property! Be creative! Be different if you wish! Create a unique look!

- **...And More**

The extra thick, solid, waterproof exterior plywood deck will endure use and abuse. Edges are protected with matching, finished extruded metal trim and a thick, non-scuff soft rubber bumper that protects your walls, furnishings and the cart itself.

- **Tough, Durable Finish**

Quality manufactured with a **No Compromise, No Maintenance** finish. Our Satin Brass is formulated so that it **CANNOT TARNISH!** These practical carts are perfect for any establishment. Our Satin Aluminum is clear coated for equal durability. The **Glaro's patented clear coat finish** withstands weather and rough handling without any need for polishing.

- **Built Solid, Built Strong, Built to Last**

Heavy gauge, formed steel chassis with an oven baked rust preventative coating will handle the load and last a lifetime.

- **More Than Just Good Looks**

The extra thick, solid, waterproof exterior plywood deck will endure use and abuse. Edges are protected with matching, finished extruded metal trim and a thick, non-scuff soft rubber bumper that protect your walls, furnishings and the cart itself.

- **Eight Inch Diameter Tires Provide a Smooth Quiet Ride**

Never disturb your guests again. These four wheel Glaro Gliders can be purchased with **Optional Eight Inch Diameter, Ball Bearing, Shock Absorbing "Air Filled" Pneumatic tires.** Maneuver the cart smoothly and quietly, even on hard floor surfaces.

- **Competitively Priced**

These carts are priced lower, saving you money now! They are also manufactured to last longer to keep saving money in the future!

# GLARO

GLARO's Diversified  
**WASTE**

## H Series

### Canopy Top, Outdoor Receptacles

Designed for outdoor use, although stylish enough for the finest lobbies. Models are available with or without separate built-in cigarette urns. These Canopy Top models have a large funnel opening for easy use.

## S Series

### Dome Top Litter Containers with Self Closing Cover

This classic design features a spring action, self-closing aluminum flap. It enhances fire safety and odor containment while keeping waste in its place. Protective, decorative safety gasket around the opening insures that metal edges are not exposed.

## F Series

### Funnel Top Litter Containers with Large Center Opening

A practical solution for high traffic, fast action locations, this open funnel design conveniently encourages use by neatly guiding waste to the inside of the receptacle.

## D Series

### Donut Top, Combination Ash & Trash Receptacles

GLARO's DONUT TOP Series of Ash/Trash Receptacles provide both the sand trough for smokers and the litter opening for trash in the top for easy access and to maximize the inner trash capacity.

## T Series

### Open Dome Top Litter Containers with Large Center Opening

This open dome design keeps disposals simple while discouraging unsightly and unwanted accumulation on its top.

## TA Series

### Tip Action Top Litter Containers with Self Closing Cover

This popular design incorporates a balanced, weighted Tip Action center disk flap that always quietly returns to center, closing the unit after each deposit, containing odors, fire and unsightly trash within the all metal unit.

## C Series

### Flat Top Litter Containers with Large Side Opening

A contemporary design for upscale locations, this modern receptacle's attractive appearance encourages use simply by standing out in the crowd.

## H Series

### Combination Ash/Trash Receptacles with Canopy Top & Large Side Opening

Ideal for indoor/outdoor use. This contemporary design features a Canopy cover over its ash tray top. This upscale design encourages use simply by standing out in the crowd.

## 4400/3400 Series

### Indoor / Outdoor Smoker's Post Ash Receptacles

A sleek, modern and durable solution for disposing of cigarettes by your building's entrances. This contemporary design will compliment ALL other GLARO products.

## C Series

### Combination Ash/Trash Receptacles with Large Side Opening

This contemporary design features a large removable "ash tray" top. This upscale design encourages use simply by standing out in the crowd.

## R Series

### Recycling Containers for Various Needs

Organizing waste makes it easier to recycle properly and helps protect our environment. GLARO carries a full line of receptacles to help you archive your goal.

## 192/F192 Series

### Sand Tray Top or Funnel Top Cigarette Urns & Combination Ash / Trash Receptacles

This Classic is designed to coordinate perfectly with all other GLARO products. This model also incorporates a separate, removable inner refuse container to hold trash. A perfect choice.

- QUICK SHIP for ALL MODELS
- DOUBLE FIRE SAFE ALL METAL DESIGN
- ENGINEERED FOR DURABILITY
- CUSTOM FINISH COMBINATIONS AVAILABLE
- COMPLETELY MANUFACTURED IN THE USA
- Glaro All Weather Receptacles are designed for Indoor/Outdoor use. All outer bodies are protected from outdoor weather conditions by our special High Temperature Baked on Powder Coating which is applied to galvanized steel or solid aluminum.
- Solid Aluminum Tops are a heavy gauge and are hand spun then satin polished. They have Glaro's exclusive tarnish proof Satin Brass finish, a Satin Aluminum finish with a clear powder coat protective surface, or a choice of 27 colors from our extensive selection of smooth and textured powder coat finishes.
- Heavy Gauge Galvanized Steel Inner Receptacles have a full Lift-Out Handle for clean and easy removal of trash. Metal inner receptacles are rust, corrosion, and fire resistant. For added fire safety, Glaro NEVER includes hazardous toxic or flammable plastic inner containers.
- Solid Aluminum Bottoms are standard on all outer and inner receptacles. They are Rust Proof and Corrosion Resistant to insure maximum Longevity.
- Glaro Waste Receptacle designs and finishes Coordinate Perfectly with all other products manufactured by Glaro.

**Satin Brass, Satin Aluminum & Matching Powder Coat Covers** are Hand Spun Heavy Gauge, Seamless Aluminum with a Protective Clear Powder Coating

**Protective Vinyl Gasket** around Openings on Certain Models

**Full, Lift Out Handle** for clean, easy removal of inner receptacle

**Extra Fire Protection from a Galvanized Steel Removable Inner Receptacle** that is also rust and corrosion resistant

**Choice of 2 Metal and 27 Durable Powder Coat Finishes** All are Suitable for Indoor and Outdoor Use

**Rust Proof Aluminum Bottoms** for maximum Longevity

**Vapor Barrier** prevents mildew and helps protect floors

## DOUBLE-METAL FIRE PROTECTION!

Glaro Waste Receptacles Provide a High Level of Fire Safety.

Glaro gives you **TWO ALL METAL LAYERS** of protection effectively containing small fires because both **Inner and Outer Receptacles are Heavy Gauge Metal**. This double wall construction helps to contain heat and flames in the event of an internal fire. (Many manufacturers offer a flammable, plastic inner bucket which may create its own potential hazard by producing toxic fumes and additional heat.)

The Glaro **Self Closing Dome Top "S Series"** and Tip-Action Top **"TA Series"** and **Smokers Post Series** receptacles in particular, **help to extinguish internal fires** by helping to cut off the oxygen supply. Small fires are retarded before they become a big problem.

**Open Top** models are designed to help contain a fire and the resulting heat.

## The "New Yorker" Satin Aluminum Collection

TA1533SA

S1536SA

D1533SA

F924SA

*Glaro Pioneered the Design and Manufacturing of Aluminum Receptacles and Continues to be the Leader in the Field.*

Glaro's "New Yorker" WasteMaster™ Collection is known for its conservative, dignified appearance, widely recognized as one of the premier product lines in the marketplace. The contemporary design and sleek satin aluminum finish will enhance any décor. The specially coated satin finish always looks new. The collection is known for its durability and ease of maintenance indoors and outdoors even in the most demanding environments.

- Glaro Satin Aluminum Receptacles are Rust Proof and Tarnish Proof
- Each outer receptacle cylinder is constructed from heavy gauge rolled aluminum that has been carefully satin finished.
- The Satin Aluminum tops are made from heavy gauge, seamless aluminum, and hand formed by Glaro's unique metal spinning process.
- The receptacle tops are then satin polished by hand and finished with a permanent, high temperature baked clear powder coat finish. The result is a permanent corrosion-free surface that is maintenance free and is easy to clean.
- Glaro Satin Aluminum Receptacles include a fireproof, galvanized steel inner container with a full "lift out" handle for easy removal of refuse and a non-corrosive, non-rusting aluminum bottom.

# Waste Receptacles

## The "Atlantis" All Weather Satin Brass Collection

The Only Satin Brass Receptacles, that are

Even Outdoors...  
**GUARANTEED!**

Perhaps the only tarnish proof satin brass receptacle available, Glaro's "Atlantis" WasteMaster™ Collection features a rich, elegant and durable, tarnish-proof satin brass finish. Its heavy gauge, beautifully finished "All Weather", rolled Aluminum construction will withstand years of use in the most demanding environments. These waste receptacles are certain to add sophisticated styling to any decor.

- The entire outer heavy gauge rolled aluminum receptacle has a permanent, high temperature baked extra hard powder coat finish for an everlasting tarnish and rustproof, scratch resistant surface.
- Satin Brass finished tops are formed by Glaro's hand spinning process from heavy gauge, seamless, aluminum and are satin polished and finished by hand.
- These satin brass receptacles include a fireproof, galvanized steel inner container with a full lift out handle for easy removal of refuse and a non-corrosive aluminum bottom for added protection.

## The "Mount Everest" Designer Finish Collection

The ONLY Indoor/Outdoor Collection of Diversified Receptacles Available in Over 80 Finish Combinations!

With over 30 models and over 80 breathtaking colorful finish combinations available, the Mount Everest Collection is the largest line of diversified metal waste and smoking receptacles manufactured anywhere. In addition, a wide variety of sizes are offered to meet the needs of every public and commercial facility. Finally, the choice of finishes and architectural appeal created by Glaro designers, make this line one of Glaro's most popular collections.

The pursuit of excellence and pride by each Glaro employee enables Glaro to continue the tradition of shipping all orders in just a few days. Many agree that this record is as awesome as Mount Everest!

- Choice of 27 attractive high temperature baked powder coat smooth and textured finishes
- Choice of satin aluminum, tarnish proof satin brass, or matching finish on the heavy gauge hand spun and hand polished aluminum covers.
- Bodies are constructed with heavy gauge galvanized solid steel.
- These receptacles include a fireproof, galvanized steel inner container with a full lift out handle for easy removal of refuse and a non-corrosive aluminum bottom for added protection.

## "Canopy Top" Waste Receptacle Collection

### INDOOR / OUTDOOR WASTE RECEPTACLES

Now you can have it all. Style, function and durability. Especially designed for tough outdoor use, these Receptacles also have the same decorative appeal indoors.

Glaro's Unique, Protective, All Weather Oven Baked Powder Coat Finish is applied over Solid, Non Corrosive Satin Aluminum or Galvanized Steel (for solid and textured colors) providing a very attractive and extremely durable receptacle. Now your property can have the same elegant, upscale appearance outside as it has inside, but without deterioration caused by harsh weather.

All inner components are made of heavy gauge galvanized steel with aluminum recessed bottoms that cannot rust and will not leave rust rings on your floors.

The New Canopy Tops on the funnel openings are the latest addition to our Wastemaster® line. They are designed to keep rainwater from entering the inner container during adverse weather conditions.

Optional brackets for bolting the receptacle to any outdoor surface are available. Please inquire for details.

## RecyclePro® Receptacle Collection

### GO GREEN — GO GLARO

Glaro is committed to operating as an environmentally responsible manufacturer by utilizing raw materials with a high percentage of recycled content whether it be aluminum, steel, or packaging materials. Furthermore, these products can themselves be recycled.

Glaro recognizes the need for the business community to offer better products for waste management in commercial and public spaces.

While developing specialized receptacles at the

request of the US Government, the Glaro designers were inspired to create the Collection known as "Glaro RecyclePro®" Receptacles. Glaro has successfully combined design with function to create the most attractive, durable, and versatile recycling receptacles anywhere.

This Glaro Collection of specialized receptacles enables every business and property to provide their occupants and visitors with an attractive method to efficiently and conveniently recycle trash.

RP-2032HG/BE

RW-1532DS

- Specialized Heavy Gauge Seamless Hand-spun Aluminum Tops For Your Various Recycling Needs

## Extenda-Barrier™

### STRAP LENGTHS

Extenda-Barrier is standard with a 7 foot long strap and Extenda-Barrier XL is standard with a 12 foot long strap.

### CUSTOM IMPRINTED STRAPS

The message of your choice and/or a logo in the color of your choice can be applied to one or both sides of each strap.

### UNIVERSAL 4-WAY HEAD

Each Extenda-Barrier™ Head is equipped with either a Durable 7' or a 12' 100% Nylon Strap. Every head has three receptor channels that receive and secure straps from other Extenda-Barrier™ posts or Extenda-Barrier™ wall mounted units.

### SIGN FRAMES AND ADAPTORS

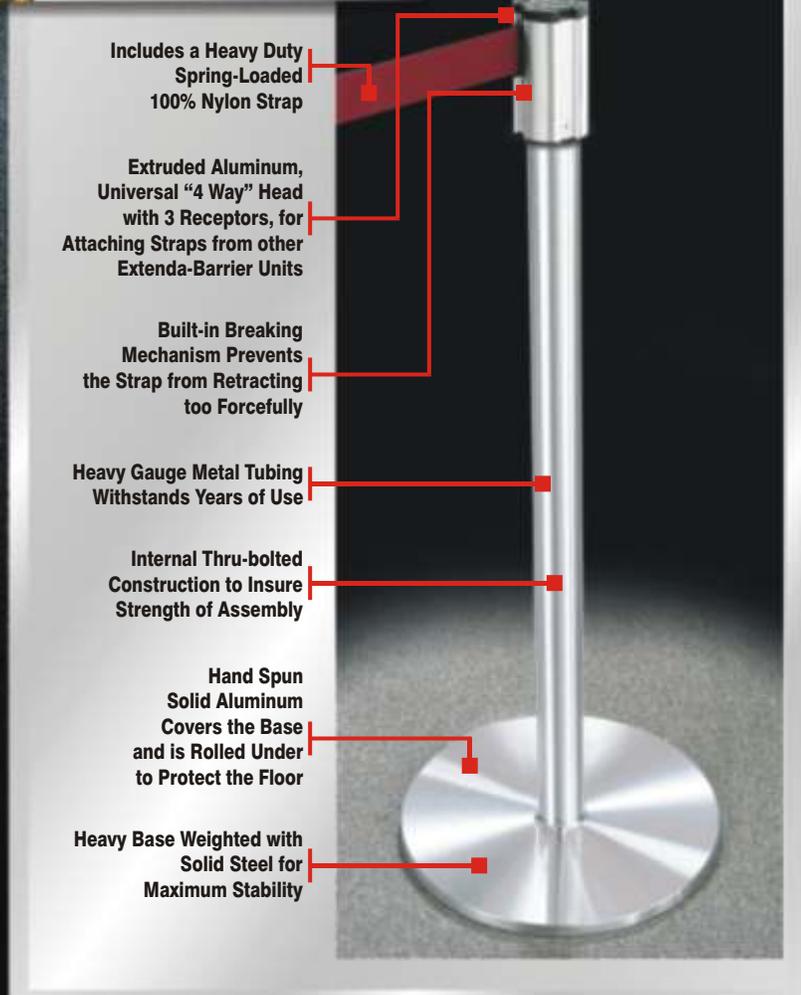

A full selection of post mounted sign frames, sign holders, and custom signs are available. All adaptors securely mount to the top of the post with recessed screws to prevent theft and accidental removal. Many sign units feature a rotating adaptor so that the sign can face the direction that will be most effective.

### STRAP SAFETY DEVICE

All Glaro Extenda-Barrier™ Units have a Slow Retracting, Centrifugal Breaking Mechanisms to prevent the strap from retracting too forcefully. Therefore, the risk of injury is eliminated and the dangerous slingshot operation of straps without safety brakes on non-Glaro products is easily avoided.

### OPTIONAL LOCKING DEVICE

In areas where small children are prevalent or where it is desired that changes not be readily made by visitors, the Optional Safety Locking Device prevents unauthorized removal of the strap, providing a greater degree of safety and security.

Includes a Heavy Duty Spring-Loaded 100% Nylon Strap

Extruded Aluminum, Universal "4 Way" Head with 3 Receptors, for Attaching Straps from other Extenda-Barrier Units

Built-in Breaking Mechanism Prevents the Strap from Retracting too Forcefully

Heavy Gauge Metal Tubing Withstands Years of Use

Internal Thru-bolted Construction to Insure Strength of Assembly

Hand Spun Solid Aluminum Covers the Base and is Rolled Under to Protect the Floor

Heavy Base Weighted with Solid Steel for Maximum Stability

**OUTSTANDING CUSTOMER SERVICE** Our staff is second to none when providing our customers with the products and services they deserve. We are sincerely interested in your product and service requirements. It is no surprise that the vast majority of our current customers have purchased, with satisfaction, our products in the past.

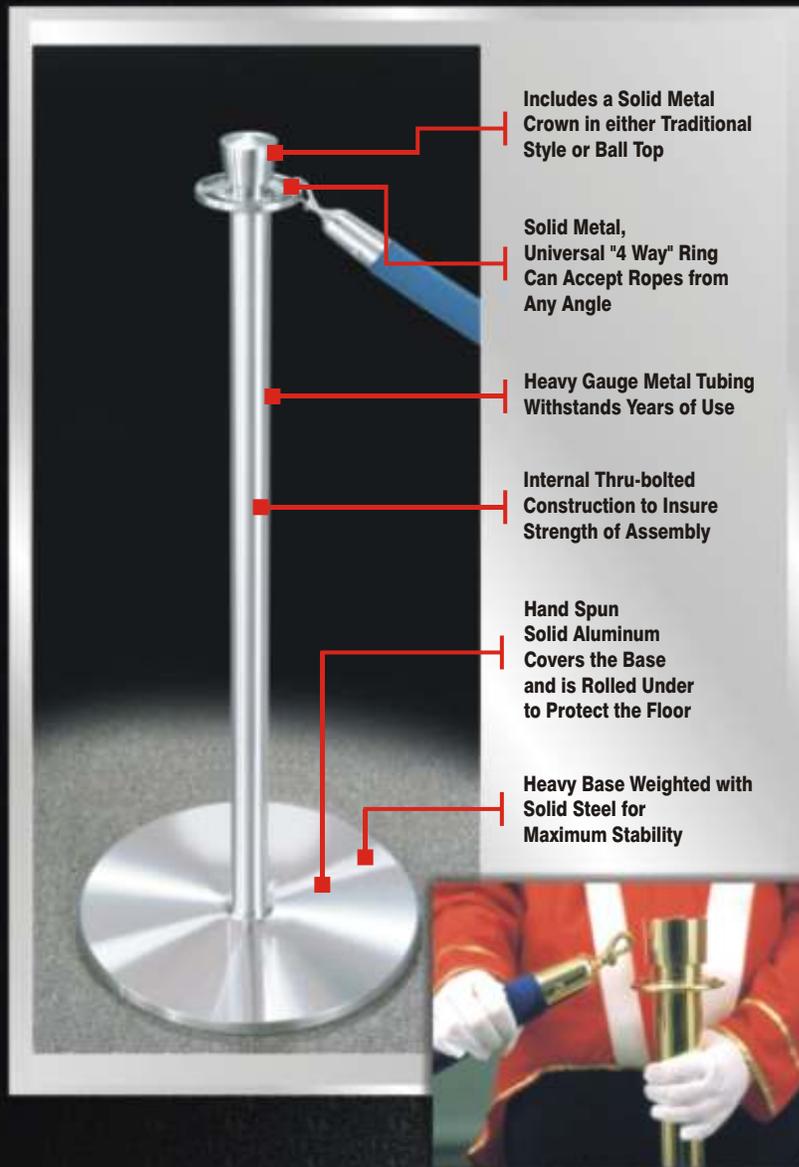

**QUICK SHIP and SERVICE** Speed of shipment is a top priority throughout the Glaro facility. Almost every order is shipped within 24 to 48 hours. Freight is handled by performance rated transporters with a proven record for safe and on time delivery at competitive prices. Posts are shipped KD which substantially reduces freight costs and damages.

**BUILT SOLID, BUILT STRONG** Glaro takes great pride in manufacturing truly durable products intended to last for years and years. Our engineers and designers understand how abusive public places can be. We use the heavy gauge metals and tough finishes that are easy to maintain and stand up to these kinds of demands.

**INDOOR/OUTDOOR USE** With the exception of the mirror brass and mirror chrome finishes all Glaro posts have been proven to be ideal for outdoor as well as indoor use. Even our specially formulated satin brass finish will never rust or tarnish.

# Queue Control Systems

## Features & Benefits

## Traditional Posts

### ELEGANT DESIGNS

Whether you select a ball top design or a standard crown, a bell shaped or flat style base your post will make an elegant appearance while providing an important function of organizing and guiding visitors in a traditional or contemporary setting.

### FOUR WAY HOOK RINGS

Four way hook rings providing for multi-directional barrier ropes to be attached are standard at the top of every Glaro post.

### ROPE

Luxurious upholstered 1 1/2" diameter solid cotton core traditional barrier ropes are available in a large variety of fabrics and colors. Glaro Nyvel is a 100% nylon velour that cannot dry rot and resists fading more than any competitive velour product.

### SIGN FRAMES AND HOLDERS

Provide the signs that guide and inform visitors. A variety of Glaro sign equipment is available and all have a "2 point" mounting to the hook ring. This is the most durable, long lasting, and firm attachment of the signage needed to direct visitors. Custom signs are available for every message.

### SNAP ENDS FOR ROPE

Only the finest hand polished solid brass castings are used on Glaro rope to provide service free performance for years to come.

### STABILITY OF POSTS AND UNIQUE BASE

**CONSTRUCTION** Glaro bases are more stable than any other brand post due to the full 14" diameter base design, and heavy weight in most of our bases. They will resist tipping more than all other posts available. Glaro bases are heavily weighted with solid steel, that can neither easily rust, crack, or shift like cast iron, concrete, or sand. The bottom of each base has a rust proof powder coat finish that is baked on. The outer covering of the base not only covers the top and sides but is rolled under the bottom to stiffen the base and protect floors. An optional full vinyl corrugated pad can be attached for more extreme situations. Permanent and socket mountings for posts are also available.

### ADA REQUIREMENTS AND CUSTOM POSTS

Custom height posts to meet ADA regulations or for exhibits are readily available. ABS base covers are in stock for all 14" diameter posts. Metal finishes may be mixed with any of our 27 powder coat colors. Please inquire.

### VARIETY and COMPLEMENTARY PRODUCTS

A full selection of designs and finishes are available to meet the needs of every décor and location. In addition, Glaro manufactures coordinated and matching companion lines of products most often used in the same or nearby areas of the facility.

**EXTENDA-BARRIER POSTS with 7' STRAPS**

# Crowd Control Systems

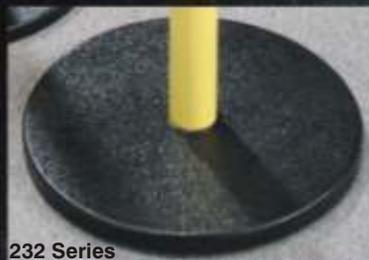

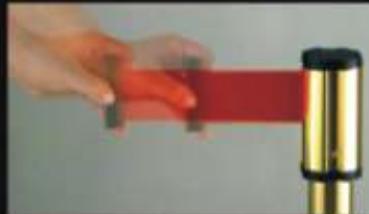

## Extenda-Barrier™ 7 Foot Crowd Control Posts

- Heaviest Posts in the Industry
- Slow Retracting Safety Straps
- 7 Foot Strap
- 4 Attractive Metal Finishes
- 27 Designer Finishes
- Quick Ship
- Custom Heights Available

Seen worldwide, these posts are almost synonymous with the concept of crowd control systems.

The patented, spring-activated barrier straps always extend or retract perfectly to fit the exact distance between posts, creating a neat, uniform and organized appearance. The concealed (patented) breaking mechanism buffers the retraction of the internal spring, allowing these units to be safely placed anywhere, even in areas where there are small children. These posts are essential in ALL public places where guiding the movement of people, in a dignified manner, is desirable.

This versatile system offers unlimited flexibility because you can modify and reconfigure your system easily and at any time. As with all Glaro products, these Crowd Control Posts are designed to coordinate perfectly with all other Glaro products. They are in stock and ready for immediate shipment.

# Crowd Control Systems

## Traditional Crowd Control Post

### Elegant & Classic

This Crowd Control System includes designs for use in upscale contemporary as well as traditional settings.

These posts and plush ropes are an ideal way to guide the movement of people in a dignified and elegant manner. Our deluxe

posts feature maximum stability by using an extra heavy, low profile base. They have a hand crafted cover that is rolled under to help protect floors. The heavy gauge, large diameter upright tube is complete with either a traditional Glaro crown or an elegant Mirror Brass Ball Top. Both have a universal 4-way hook ring that accepts line ropes from any direction. Glaro's

Traditional Crowd Control Posts are perhaps the sturdiest, most durable and best looking posts manufactured in America today.

As with all Glaro products, these Crowd Control Posts are designed to coordinate perfectly with all other Glaro products and are in stock ready for immediate shipment.

# Crowd Control Systems

## Safety / Security Barriers & Signage

### PRE-PRINTED SILK SCREEN SIGN PANELS

### Portable Public Deterrents

These Crowd Control Systems offer maximum effectiveness due to their unmistakably high visibility. The Bright Safety Yellow combined with Stark Black, provides high contrast that relays an instant cautionary message. The all weather, high impact textured ABS base is heavily weighted with solid steel for maximum stability.

Choose the Extenda-Barrier Posts featuring retractable straps up to 12' long, if your needs vary frequently. Our Traditional Posts are Ideal for more permanent applications. Our Loop Crown Posts are the perfect, economical solution because our 1/2" plastic rope can be "Looped" through post after post. The posts can be situated further apart, so fewer posts are needed. Large areas can be protected at a minimum cost.

Highly visible signage adds a precise message to your system. Standard messages and any type of custom signs are available. Call for details. Bright Yellow Plastic Sign Panels are Silk Screened with Black Ink, for clear Cautionary Messages. Radius Corners are supplied with signs to be used with Sign Holders F72. Holes may be drilled in the sign panels for hanging upon request.

### Loop Crown Posts

## Sign Frames and Sign Holders

Glaro helps you convey your message in the most effective way with either two sided sign frames or Glaro's exclusive **Insta-Change** frames! These distinctive displays make an attractive and highly visible presentation. They have an impressive and commanding presence that will create an air of importance to your message.

### Exclusive Lif-Top Design

All Frames open and close via Glaro's special "Lif-top" design. It is a unique, patented, concealed double hinged inner mechanism that provides quick and easy access to the insert channel. There are no exposed open slots. It is easily operated by authorized personnel but resists tampering by those not familiar with the design.

**Sign Displays F4, W4, C4, & F5 inserts are not included.** Select a black plastic Sintra (SN) backing panel to support your sign and a clear acrylic panel (PW) to protect your sign, or two clear acrylic panels for a two sided sign. In addition, you may select a gloss black wipe off panel (WP) and its neon/fluorescent markers (FM6). Frames have a 1/4" wide track. Also available are custom frames with a 1/2" wide track for sign panels.

**Insta-Change Signs FV4, WV4, and CV4** (on next page) a special luxurious black velour covered Sintra panel and a clear Plexiglas panel are included. Just sandwich your sign between the two panels allowing the black velour border to show and insert into the sign frame channel. The pressure of the two panels will hold your sign in place.

**Finally!** A high-end display frame worthy of a presence in upscale lobbies, restaurants, hotels, exhibits, places of worship, funeral homes, catering halls or other public places. Make eye catching customized displays of your menus, welcome signs, posters, directories, schedules or any messages. The Plexi-glass window over either a velour lined panel or a neon wipe-off panel, easily slides in or out of the frames inner track. The track is accessed via the exclusive Glaro Lif-Top feature which works on concealed hinges. No open slots or locks are necessary. These stunning display frames add an air of excellence to your facility.

MW1824BE

MV2228MB

### Fluorescent /Neon Marker Dry Wipe-Off Displays

Bright and lively vivid colors make a presentation sparkle. Be creative or just write your message. Glaro Neon Wipe-Offs are an effective marketing tool. Just draw, write and create your display with the colorful fluorescent markers (sold separately below), allow to dry, place the Plexi-glass window over the panel and insert into the frame. They are excellent for menus, specials, promotions, and notices. They are also excellent tools for the classroom or other group presentations. Assembly allows for either landscape or portrait positioning of the frame.

### Deluxe Multi-Purpose Displays With Black Velour Back Panel

These displays feature a 1/8" thick solid backing panel lined with luxurious black nylon velour. The velour will hold your printed material in place when sandwiched between the velour backing panel and the Plexi-Glass window and inserted into the frame. The contrasting black velour covering serves as an attractive soft looking mat for areas not covered by display material. This display also features Glaro's Lif-Top design to easily change your message. Assembly allows for either landscape or portrait positioning of the frame.

# Mirror Brass Drop Boxes

W1056MB

C1056MB

## Elegant Mirror Brass **DROP BOXES** with Solid Raised Letters

The ultimate in high quality drop boxes. The rich, mirror polished genuine brass finish is protected with Glaro's special baked clear coating that prevents tarnish and eliminates the need to polish. These attractive indoor drop boxes have solid, three-dimensional mirror brass lettering.

Counter models are designed to safely mount onto any surface with concealed mounting hardware

provided. Wall mounted models have a stately matching back plate, concealed mounting hardware and specially designed spacers that create an attractive floating effect. Floor models have a 14" diameter heavily weighted base and a 1 1/2" diameter post that gives this product a 42" overall height. Each drop box is 6" wide x 7" high x 12" long and all insert slots are 3/8" wide by 4" long.

Glaro, a family owned and operated business for more than sixty years, continues to produce attractive, functional, and carefully engineered metal products for commercial and public facilities with a focus on meeting current market needs. We design and manufacture all of our products using a large variety of specialized machines controlled by skilled craftsmen. Many hand crafted operations are also performed daily. With in-house design, engineering, and tool/die making, Glaro maintains total control creating products that are shipped promptly and meet our high standards.

Glaro is an environmentally responsible manufacturer utilizing raw materials that contain recycled metals.

Glaro's diversified and coordinated product lines are amongst the most comprehensive offered by any manufacturer in our field.

In addition, the hallmarks of Glaro continue to be outstanding customer service and unsurpassed quick shipping. Immediate and personalized attention is provided to every customer. All standard and custom assembled products are shipped within 2 to 5 days, most often within 48 hours.

We extend our appreciation to those who have supported the Glaro product line over the years and we look forward to welcoming new customers.

Harry Glass • Founder

Glaro was founded by Harry Glass, a practical, master craftsman who paid meticulous attention to detail, quality, and service. Today, we are proud that Glaro continues to set the same high standards.
